Smart Matching Of  
Function And Design

# BASIN FAUCET

It is pleasant to have choices - but too many options often make people feel at a loss. When you choose bathroom products, the faucet and washbasin should be skillfully matched to avoid splashing and ensure sufficient space for daily washing. In order to ensure that you can find the faucet that matches your washbasin exactly when you choose it for the first time, Gaoyi has developed an application that matches the website.

# PULL-OUT

BASIN FAUCET

The combination of simplicity and complexity,  
hardness and softness,  
delicacy and profundity,  
vulgarity and art,  
tradition and fashion achieves a perfect balance,  
and takes a tonal route to  
create a space for petty bourgeoisie to live in.

The background of the advertisement features a dark, abstract composition. It is filled with numerous small, glowing particles that resemble snowflakes or ice crystals, particularly concentrated in the upper right quadrant. A large, dense cluster of these glowing particles is visible in the lower right corner. The overall aesthetic is futuristic and elegant, suggesting purity and precision.

## TOUCH INDUCTION DIGITAL DISPLAY

The kitchen is a hands-on place, and many things need to be handled at the same time. We have developed a product with two innovative solutions, which can control the water flow without using hands, and improve the hygiene, convenience and intuitive usability of the kitchen. Just touch with your wrist or elbow to control the faucet. Free your hands and keep the faucet clean and shiny.

Change your kitchen control with one touch.

## LED TEMPERATURE SENSING DISPLAY

The innovative touch faucet will not affect your work progress even if your fingers are sticky. Say goodbye to cross infection. With this hidden technology, you can open and close the water flow simply by touching any part of the water outlet with your arm, wrist or back of your hand.

# SPLIT FACE

Art often comes from people's intuitive cognition of touching the mind, stimulating thinking and exploring things. Reality and imagination, harmony/interaction with stimuli. We are willing to draw inspiration from art and create new technological achievements. The new achievements have excellent appearance and function, and finally form a landmark design product.

And extend to the present and future  
Express art in a new form  
Between simplicity and complexity, extravagance and adaptability  
Pass on the upward life attitude

## NEW PARADIGM OF LUXURY LIFE

The distance from taste is either far or near. Every moment when we enjoy life, Beauty radiates a charming temperament from the inside out. Sometimes, when we turn on the tap, Sometimes, when we turn around and leave the bathroom, the taste of life is always with us. In fact, it comes from its own noble charm.
